EXAMINER'S AMENDMENT/COMMENT

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the indication of the allowability of claims 1-6, 8-9 is the inclusion therein of the limitations of a correction amount to be used for printing with the changing arrangement of ink for correcting a misalignment between a position at which dots are formed during a forward pass of said print head and a position at which dots are formed during a return pass of the print head that occurs during the printing with the first or second arrangement of ink supplied. These limitations are neither suggested nor taught by the prior art of record, alone or in combination as claimed.

The primary reason for the indication of the allowability of claims 7 and 10 is the inclusion therein of the limitations of a correction amount to be used for printing with the changing arrangement of ink for correcting a misalignment between a position at which dots are formed during a forward pass of said print head and a position at which dots are formed during a return pass of the print head that occurs during the printing with one of the first sub-pattern of ink color and one of either second or third pair of sub-pattern of ink color. These limitations are neither suggested nor taught by the prior art of record, alone or in combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
